About Codingal

Our Mission: To inspire kids and teens to fall in love with AI & coding

Codingal is a leading online after-school where kids & teens learn AI & coding from expert instructors through live, interactive classes. Our mission is to build the world's largest & most loved programming school for kids & teens, powered by human & AI tutors.

All our instructors come from Computer Science background, and they are rigorously vetted and trained. Every student gets a personalized learning path and individual attention in 1:1 private classes or small group classes with expert instructors. Students learn by building apps, games, animations, and websites in a fun & engaging way.

Kids find Codingal very fun & engaging. They have rated teachers at 4.9 out of 5. Curriculum content is rated at 4.8 out of 5.

Codingal is on a mission to inspire kids to fall in love with AI & coding, and provide the right education to them who will be able to create anything they can imagine and build the future when they grow up to become entrepreneurs, engineers, and scientists.

Codingal empowers kids to become innovators of the future

Why should kids learn AI & Coding?

Coding is the new literacy : Technology has become a core part of our lives, powering everything from websites to smart gadgets. With AI increasingly shaping the future, teaching kids coding and AI prepares them to thrive in a tech-driven world. These skills enable kids to innovate, solve problems, and succeed in a rapidly evolving landscape.

What are the benefits of learning AI & Coding?

- Develops problem-solving skills
- Boosts analytical and data-driven thinking
- Enhances creativity and imagination
- Encourages innovative real-life solutions
- Builds resilience and adaptability

Why this curriculum?

- Accredited by STEM.org
- Rated 4.5 out of 5 by students and parents on Trustpilot
- Based on BIDE (Broad, Inspiring, Deep and Efficient) model
- Focus on STEAM (Science, Technology, Engineering, Arts, Math) subjects
- Enhances cognitive, logical, and computational skills
- Makes learning highly effective, interactive, and fun

Why learning to code is essential for every child in the age of AI

AI development requires coding

Building AI requires coding, which provides instructions to make the system function properly, ensuring everything runs smoothly and behaves as intended.

Augmenting human creativity

AI serves as a powerful tool for enhancing creativity, helping creators but still relying on human direction to produce unique and meaningful results.

Coding as a foundation for AI literacy

Learning to code is essential for understanding technology, enabling effective communication with computers and empowering individuals to create and innovate.

New jobs & industries

The rise of AI creates new opportunities in various fields, from developing AI tools to maintaining and improving systems, generating demand for skilled professionals.

No-code/low-code platforms

No-code platforms simplify building applications with drag-and-drop tools, but coding knowledge is necessary for creating more customized, complex features and designs.

Student's learning journey

Earn AI & Coding certificates with STEM.org accreditation

1

2 Prodigy

3

Grandmaster

10+ Additional certificates in the entire learning journey

AI & Coding Grandmaster

Unleash your coding potential! Create dynamic games, apps, and AI projects. Explore Python, JavaScript, Scratch, and web development. Master real-world skills, build interactive creations, and unlock your creativity with every lesson!

144 Classes
350+ Projects
144 Quizzes

Key learnings

- ✓ Create interactive Scratch projects
- ✓ Build apps and games with Python
- ✓ Explore web design using HTML/CSS
- ✓ Develop dynamic JavaScript applications
- ✓ Understand AI, ML, and Data Science

Top achievements

- ✓ Design games like Space Invader
- ✓ Built mobile apps like Weather App
- ✓ Create websites with Bootstrap
- ✓ Develop Python-based tools & games
- ✓ capstone projects in programming

Module 1 Game Design - I

Build musical games and bouncing animations! Program smart instruments that detect your movements using AI!

Language:
Block based

Platform:
Scratch

6 Lessons & 10+ Projects

[Happy Balls](#)

[Mario Dash](#)

Module 2 Game Design - II

Build advanced Scratch games including Snake, Car racing, and Casey adventures! Create AI assistants speaks multiple languages!

Language:
Block based

Platform:
Scratch

6 Lessons & 10+ Projects

[Car Game](#)

[Hungry Casey](#)

Module 3 Advanced Game Design

Create microscope simulations and Pacman games! Program your talking AI companion GIGA using Text-to-Speech!

Language:
Block based

Platform:
Scratch

6 Lessons & 10+ Projects

[Microscope](#)

[Pacman](#)

Unlock Scratch Developer Certificate

Module 4 Artificial Intelligence

Get introduced to the magical world of Artificial Intelligence. Create an Image Recognizer project using block coding.

Language:
AI

Platform:
Teachable Machine & Playground

6 Lessons & 10+ Projects

[Mailman](#)

[Happy Sad Dog](#)

AI & Coding Grandmaster

Module 5 Machine Learning

Get introduced to speech recognition and Machine Learning.

Language:
AI

Platform:
Teachable Machine & Playground

6 Lessons & 10+ Projects

[Underfitting](#)

[Roaming](#)

Unlock AI Programmer Certificate

Module 6 Mobile App Development

Introduction to basics of Application development. Create exciting games like Space Warriors.

Language:
Block Based

Platform:
MIT App Inventor

6 Lessons & 10+ Projects

[Health App](#)

[Doodling Board](#)

Module 7 Utility Apps

Learn to create an application that can check the strength of your password.

Language:
Block Based

Platform:
MIT App Inventor

6 Lessons & 10+ Projects

[Space Warrior](#)

[Calculator](#)

Unlock Basic Application Developer Certificate

Module 8 Native Applications

Learn how to build games and apps using cloud storage.

Language:
Block Based

Platform:
MIT App Inventor

6 Lessons & 10+ Projects

[Weather Application](#)

[My App](#)

Module 9 AI App Creation

Learn how to pass data through Firebase and create exciting applications. Also learn how to integrate Chat GPT in your apps.

Language:
Block Based

Platform:
MIT App Inventor

6 Lessons & 10+ Projects

[Chat GPT Integration](#)

[Snap It](#)

Unlock Advanced Application Developer Certificate

AI & Coding Grandmaster

Module 10

Introduction to Web Development

Learn the basics of web development and create your first webpages with HTML. From lists to tables, structure your ideas for the web.

Language:
HTML

Platform:
[codepen.io](#)

6 Lessons & 20+ Projects

[HTML Table](#)

[HTML Forms](#)

Module 11

Webpage Styling

Understand the fundamentals of CSS, including how to style, align, and position elements for attractive web designs.

Language:
CSS

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Box Model](#)

[Space Explore Club](#)

Module 12

Web App Development

Learn about bootstrap which will help to make the website responsive. Use numerous HTML and CSS templates for UI interface elements.

Language:
HTML CSS

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Bootstrap Utilities](#)

[Portfolio](#)

Unlock Web Developer Certificate

Module 13

Advanced Front-end Development - I

Get introduced to JavaScript programming. Learn to add interactive behaviours to a webpage using Javascript.

Language:
HTML CSS JS

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Loops in Js](#)

[HTML DOM](#)

Module 14

Advanced Front-end Development - II

Get ready to add extraordinary behaviours to your web pages through advance concepts of JavaScript.

Language:
HTML CSS JS

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Arrow Function](#)

[Validation using API](#)

AI & Coding Grandmaster

Module 15**JS App Development**

Master JavaScript by creating engaging apps like calculators, to-do lists, digital clocks, and dice rollers, enhancing your coding expertise!

Language:
JS

Platform:
[VS code](#) & [Github](#)

6 Lessons & 10+ Projects

[To Do List](#)

[Rolling Dice](#)
Module 16**Hosting Personal Websites**

Create your own website using HTML, CSS and Javascript.

Language:
HTML CSS JS

Platform:
[VS code](#) & [Github](#)

6 Lessons & 2+ Projects

[Navigation Bar](#)

[Contact us](#)

Unlock Frontend Developer Certificate

Module 17**Python Basics**

Learn about Python basics including data types, operators and conditional statements.

Language:
Python

Platform:
[VS code](#) & [Github](#)

6 Lessons & 25+ Projects

[Profit Loss](#)

[Odd or Even](#)
Module 18**Problem Solving using Loops**

Learn about the essential concept of programming called Loops.

Language:
Python

Platform:
[VS code](#) & [Github](#)

6 Lessons & 25+ Projects

[BMI Checker](#)

[Spiral](#)
Module 19**Advanced Python**

Get introduced to the concept of Functions and Exception Handling in Python.

Language:
Python

Platform:
[VS code](#) & [Github](#)

6 Lessons & 25+ Projects

[Trip Expenditure](#)

[Number Game](#)

Unlock Python Developer Certificate

AI & Coding Grandmaster

Module 20

Python Data Structures

Learn the concept of data structures - List, Tuple, Dictionary and Set along with their common functions.

Language:
Python

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Tic Tac Toe Game.](#)

[Guess the Number Game](#)

Module 21

Object Oriented Programming

Learn about Object Oriented Programming concepts and how to implement them in Python.

Language:
Python

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Bus Fare](#)

[All About Countries](#)

Unlock Advanced Python Developer Certificate

Module 22

Game Development

Learn about all the necessary components for creating a video game step by step using Pygame.

Language:
Python

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Sprite Collision](#)

[Space Invader](#)

Module 23

GUI Development

Get introduced to the Python library Tkinter that can help create GUI applications.

Language:
Python

Platform:
[VS code & Github](#)

6 Lessons & 20+ Projects

[Denomination Calculator](#)

[Order Management](#)

Unlock Python Game Developer Certificate

Module 24

Introduction to Data Science

Learn what is Data Science and the commonly used libraries of Python-like Numpy, Pandas, Matplotlib and Seaborn.

Language:
Data Science

Platform:
[Google Colab](#)

6 Lessons & 10+ Projects

[Weather Data Visualization](#)

[Housing Rent prediction](#)

Unlock Data Scientist Certificate

Top 10 benefits of learning at Codingal

1. Regular PTM

Great opportunity for parents and teachers to open two-way communication and to share insights and information for the holistic development of a child.

2. Regular doubt session

After every module solve all your queries in this personalized session. The toughest problems addressed – concepts revised and doubts cleared!

3. Engaging quizzes

Quizzes are fun and help us remember important facts. These well-targeted and tailor-made quizzes will boost self-esteem and confidence among kids.

4. Thrilling competitions

Regular competitions are conducted to encourage students to showcase their skills and develop their ideas.

5. Learning Certificates

Show the world what you can do with a certificate for every amazing skill you master.

Top 10 benefits of learning at Codingal

6. Live personalized classes

Understand concepts faster with personal attention from teachers. Learn coding from highly qualified teachers trained to make learning effective and impactful.

7. Lifetime access to class videos

Forgot what was taught in the last class? No worries. Watch the recorded class video anytime to refresh your memory.

8. Lifetime access to resources

Get lifetime access to our exclusive learning content including DIY sheets, videos, and other resources.

9. Gamified learning

Codingal makes learning fun with gamification. Students can take quizzes or complete projects to earn points, badges, and rewards.

10. After class projects

For each class, students have the opportunity to complete an after-class project, enabling them to apply what they've learned, test their skills, and receive valuable feedback from their teacher.

Students and parents love Codingal

Ray

Japan

I love learning with Codingal. It's always fun and the teacher is nice and kind.

Lavanya

India

The courses develop multiple skills and ensure maximum clarity of coding concepts.

Billie

Kenya

Codingal classes are so much fun. I've started to really enjoy creating things with code.

Elara Dalton

USA

I referred Codingal to my friend, and now we're both into coding! She joined the classes too. Plus, Codingal gave me a whole month of free coding classes.

Unlock your child's potential in Math & Science with AI and Coding

In Science, AI and coding enable simulations and data analysis. Students use AI models to predict outcomes in biology, chemistry, and climate science, learning how coding drives scientific discovery and accelerates problem-solving in real-world applications.

Learning AI and coding help students apply mathematical concepts like linear algebra and statistics to real-world problems. Coding AI models allows them to visualize math, make predictions, and see how math powers data analysis and decision-making.

Our teachers provide individual attention to kids, customize projects based on their interests and make them fall in love with AI & Coding, enabling them to also perform well in other subjects in school.

Foundation of Codingal's curriculum

BLOOM

Bloom's Taxonomy is a standard guideline for K-12 content development, which includes 6 stages of learning: Remember, understand, apply, analyze, evaluate and create.

BIDE

The BIDE (Broad, Inspiring, Deep and Efficient) model has been developed by Codingal in-house to ensure that our curriculum caters to the unique learning style of every child.

STEAM

STEAM is an approach to learning that uses Science, Technology, Engineering, the Arts and Mathematics as access points for guiding student inquiry, dialogue, and critical thinking.

AI & Coding - Gateway to success in the future

“

Now is a great time to be entering the coding world because technology will change more in the next 10 years than it has in the last 50.

- Bill Gates

“

Whether you want to uncover the secrets of the universe, or you just want to pursue a career in the 21st century, basic computer programming is an essential skill to learn.”

- Stephen Hawking

A note from Codingal Founders

Teaching coding and AI to kids is a profound responsibility. Our dedicated educators and meticulously crafted curriculum reflect our deep understanding and commitment to nurturing future innovators.

Vivek Prakash

Co-founder & CEO
B.Tech & M.Tech, IIT Roorkee

[LinkedIn](#)

Learning to code is not just about reaching new heights like going to Mars or the moon. Coding, along with AI, equips kids with the skills to think critically and creatively, empowering them at multiple levels.
