Psychology behind this curriculum

Public Speaking and Communication nurture a child's ability to express themselves with clarity, confidence, and emotional intelligence. With guided practice, students learn to communicate thoughtfully, listen with curiosity, and participate with greater comfort in both classroom and social environments.

The programme strengthens everyday interactions by helping children articulate ideas, understand others' perspectives, and engage in conversations with politeness and ease. As they grow more assured in how they speak and respond, children naturally develop stronger presence, improved collaboration, and a more confident voice in school and beyond.

Our teachers provide individual attention to students, guide them through personalised public speaking tasks, and help them develop clear communication skills, enabling them to express themselves confidently and perform better across all subjects in school.

Foundation of Codingal's curriculum

BLOOM

Bloom's Taxonomy is a standard guideline for K-12 content development, which includes 6 stages of learning: Remember, understand, apply, analyze, evaluate and create.

BIDE

The BIDE (Broad, Inspiring, Deep and Efficient) model has been developed by Codingal in-house to ensure that our curriculum caters to the unique learning style of every child.

STEAM

STEAM is an approach to learning that uses Science, Technology, Engineering, the Arts and Mathematics as access points for guiding student inquiry, dialogue, and critical thinking.

Public Speaking & Communication - Clear minds, confident words
