Learning Outcomes

Confident communicators and critical thinkers

Students master personal voice and identity, then develop the reasoning skills to persuade, debate, and challenge with clarity, evidence, and confidence.

Persuasive and ethical arguers

Students learn to build bulletproof arguments, use rhetorical devices with purpose, and hold the line between genuine influence and manipulation.

Media-literate and digitally responsible speakers

Students evaluate information critically, spot misinformation in real time, and communicate with credibility and care in digital and public spaces.

Empathetic and strategic listeners

Students use empathy, perspective-taking, and conflict resolution skills to communicate in ways that build real trust and understanding.

Principled communicators ready for the real world

Students emerge as young people who speak with both impact and integrity - fully aware of their communication power and responsible in how they use it.

Public Speaking & Communication Prodigy

Public Speaking & Communication Grades 6-8 Prodigy develops communicators who own their voice and move audiences with reason and integrity. Psychology behind this curriculum

Public Speaking and Communication nurture a child's ability to express themselves with clarity, confidence, and emotional intelligence. With guided practice, students learn to communicate thoughtfully, listen with curiosity, and participate with greater comfort in both classroom and social environments.

The programme strengthens everyday interactions by helping children articulate ideas, understand others' perspectives, and engage in conversations with politeness and ease. As they grow more assured in how they speak and respond, children naturally develop stronger presence, improved collaboration, and a more confident voice in school and beyond.

Our teachers provide individual attention to students, guide them through personalised public speaking tasks, and help them develop clear communication skills, enabling them to express themselves confidently and perform better across all subjects in school.

Foundation of Codingal's curriculum

BLOOM

Bloom's Taxonomy is a standard guideline for K-12 content development, which includes 6 stages of learning: Remember, understand, apply, analyze, evaluate and create.

BIDE

The BIDE (Broad, Inspiring, Deep and Efficient) model has been developed by Codingal in-house to ensure that our curriculum caters to the unique learning style of every child.

STEAM

STEAM is an approach to learning that uses Science, Technology, Engineering, the Arts and Mathematics as access points for guiding student inquiry, dialogue, and critical thinking.
